

# NSVA meeting Copenhagen, Denmark November 8-9, 2021

## Preliminary Program

Due to the Corona pandemic it has been a long time since we have met. Luckily the situation is improving and the restrictions are more or less gone. There is no quarantine for travellers that are vaccinated or have a negative PCR test. But we encourage you to seek knowledge in your own country. There can be local restrictions and the situation can change. In case the authorities orders / government restrictions would not allow us to organise a live meeting, NSVA takes no financial responsibility over participants travel costs. We hope that the pandemic will not escalate again and we will be able to meet in Copenhagen.

Many kind regards

On behalf of the vascular anomalies team in Rigshospitalet, Copenhagen, Denmark.

Susanne Frevert  
Interventional radiology  
Copenhagen, Denmark.

## Venue:

The meeting will take place in Rigshospitalet, Copenhagen, Denmark.
